Shire

Design Piero Lissoni

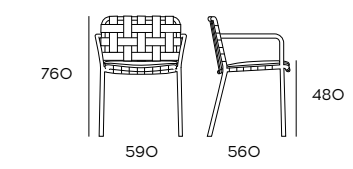

Shire è la nuova collezione per l’outdoor SchönnhuberFranchi, disegnata da Piero Lissoni. Il suo nome evoca le contee inglesi e la loro campagna: i grandi spazi verdi, le feste all’aperto, i campi da golf e le corse dei cavalli. Le forme sono sinuose e rimandano a sedute di altri tempi mentre le cinghie che sostengono e caratterizzano le poltroncine e le sedie conferiscono un tocco contemporaneo.

Shire is the new collection of outdoor SchönnhuberFranchi’s furniture designed by Piero Lissoni. The name concerns to the English counties with their lands and remember the beautiful outdoor parties, the endless green areas, golf courses and horses racing. The forms are sinuous and recall seats of bygone days whilst the straps, which support and characterize the armchairs and chairs, confer a contemporary touch.

Shire ist die neue Outdoor-Kollektion von Schönnhuber Franchi aus der Feder von Architekt Piero Lissoni. Der Name dient als Anlehnung an die englischen Grafschaften und ihren Ländereien und soll an die prunkvollen Feste im Freien, die unendlichen Grünflächen, die Golfplätze und die Pferderennbahnen erinnern. Sinnliche Formen im Retrostyle und Lederriemen verleihen den Möbeln einen individuellen und doch zeitgenmäßen Charakter.

T-soft

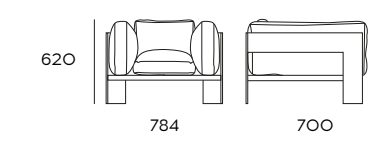

design Lara Caffi

È in alluminio la struttura portante della collezione T-soft di Lara Caffi, composta da poltrone, divani a due e tre posti e lettini. La particolare lavorazione dell'alluminio, tagliato a laser e piegato, consente la realizzazione del pezzo da un'unica lastra, evitando saldature tra le parti. Generose imbottiture utilizzate per le sedute e gli schienali, rivestite con tessuti resistenti agli agenti atmosferici, regalano a Tsoft una linea morbida e di piacevole utilizzo.

Aluminium is the load bearing frame of the T-soft collection by Lara Caffi, comprising of armchair, two seater and three seater sofas and sun beds. The particular workmanship of the aluminium; laser cut and manipulation, allows the item to be realized from a single sheet, therefore avoiding welding of parts. Generous padded cushions used for the seat and back, covered with fabrics resistant to atmospheric agents; bring to T-Soft a soft line and pleasant use.

Die tragende Struktur der T-soft Kollektion von Lara Caffi ist aus Aluminium und besteht aus Sesseln, zwei- und dreisitzigen Sofas und Sonnenliegen. Die spezielle Bearbeitung von Aluminium, lasergeschnitten und gefaltet, ermöglicht die Konstruktion des Werkstücks aus einer einzigen Platte, wodurch ein Verschweißen der Komponenten vermieden wird. Großzügige Polsterungen für Sitze und Rückenlehnen, die mit atmosphärischen Stoffen bezogen sind, verleihen T-soft eine weiche und angenehme Anwendung.

Pure

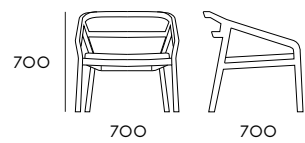

design Marcello Ziliani

C'è molto carattere in Pure, così essenziale, ed elegante, la linea della gamba anteriore che si apre verso l'esterno e si curva all'indietro per salire a creare il sofisticato e confortevole schienale avvolgente. Il legno di Iroko, dai bellissimi riflessi ambrati, è destinato alle versioni outdoor, con seduta in fettuccia di corda nautica, prodotta e intrecciata a mano in Italia, o in batiline effetto tessuto. Declinata nelle versioni poltroncina da tavolo e poltrona lounge (entrambe impilabili) questa collezione è perfetta per una destinazione prettamente contract così come per arredare con raffinatezza ville e giardini privati.

The new product line Pure has an essential and elegant character. The line of the front leg is open to the outside and curved backwards to create the comfortable enveloping backrest. Iroko wood, with its beautiful, amber reflections, is designed for outdoor versions - with a nautical line, made and handcrafted in Italy, or fabric-effect batiline. Transferred to armchairs and lounge chairs (both stackable), this collection is great for stylishly setting up studios, villas, and private gardens.

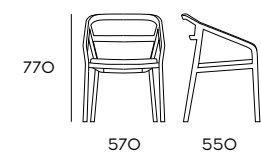

Die neue Produktlinie Pure hat einen essentiellen und eleganten Charakter. Die Linie des Vorderbeins ist nach außen hin geöffnet und nach hinten gekrümmt, um die komfortabel umhüllende Rückenlehne zu schaffen. Iroko-Holz mit seinen schönen, bernsteinfarbenen Reflexen ist für Outdoor-Versionen vorgesehen – mit Sitz in nautischer Schnur, hergestellt und handgefertigt in Italien, oder in Batiline mit Stoffeffekt. Übertragen auf Sessel und Lounge-Sessel (beide stapelbar), eignet sich diese Kollektion hervorragend für das stilvolle Einrichten von Studios, Villen und privaten Gärten.
