Shire

Design Piero Lissoni

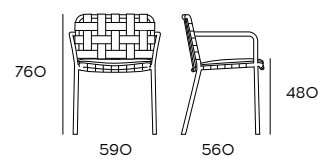

Shire è la nuova collezione per l'outdoor SchönnhuberFranchi, disegnata da Piero Lissoni. Il suo nome evoca le contee inglesi e la loro campagna: i grandi spazi verdi, le feste all'aperto, i campi da golf e le corse dei cavalli. Le forme sono sinuose e rimandano a sedute di altri tempi mentre le cinghie che sostengono e caratterizzano le poltroncine e le sedie conferiscono un tocco contemporaneo.

Shire is the new collection of outdoor SchönnhuberFranchi's furniture designed by Piero Lissoni. The name concerns to the English counties with their lands and remember the beautiful outdoor parties, the endless green areas, golf courses and horses racing. The forms are sinuous and recall seats of bygone days whilst the straps, which support and characterize the armchairs and chairs, confer a contemporary touch.

Shire ist die neue Outdoor-Kollektion von Schönnhuber Franchi aus der Feder von Architekt Piero Lissoni. Der Name dient als Anlehnung an die englischen Grafschaften und ihren Ländereien und soll an die prunkvollen Feste im Freien, die unendlichen Grünflächen, die Golfplätze und die Pferderennbahnen erinnern. Sinnliche Formen im Restyle und Lederriemen verleihen den Möbeln einen individuellen und doch zeitgemäßen Charakter.

T-soft

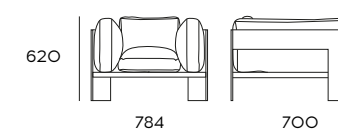

design Lara Caffi

È in alluminio la struttura portante della collezione T-soft di Lara Caffi, composta da poltrone, divani a due e tre posti e lettini. La particolare lavorazione dell'alluminio, tagliato a laser e piegato, consente la realizzazione del pezzo da un'unica lastra, evitando saldature tra le parti. Generose imbottiture utilizzate per le sedute e gli schienali, rivestite con tessuti resistenti agli agenti atmosferici, regalano a Tsoft una linea morbida e di piacevole utilizzo.

Aluminium is the load bearing frame of the T-soft collection by Lara Caffi, comprising of armchair, two seater and three seater sofas and sun beds. The particular workmanship of the aluminium; laser cut and manipulation, allows the item to be realized from a single sheet, therefore avoiding welding of parts. Generous padded cushions used for the seat and back, covered with fabrics resistant to atmospheric agents; bring to T-Soft a soft line and pleasant use.

Die tragende Struktur der T-soft Kollektion von Lara Caffi ist aus Aluminium und besteht aus Sesseln, zwei- und dreisitzigen Sofas und Sonnenliegen. Die spezielle Bearbeitung von Aluminium, lasergeschnitten und gefaltet, ermöglicht die Konstruktion des Werkstücks aus einer einzigen Platte, wodurch ein Verschweißen der Komponenten vermieden wird. Großzügige Polsterungen für Sitze und Rückenlehnen, die mit atmosphärischen Stoffen bezogen sind, verleihen T-soft eine weiche und angenehme Anwendung.

Simple

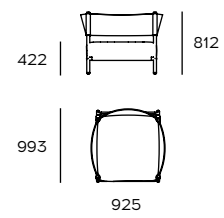

projcet Marcello Ziliani

Ridurre un divano a pochi elementi fondamentali: un telaio in tubolare d'acciaio, un nastro in tessuto, cuscini imbottiti. Da qui nasce Simple, sofisticata famiglia di poltrone, divani, sedie, pouf e tavolini in cui la sapiente fusione di materiali e finiture esalta la semplicità delle forme, la razionalità delle soluzioni, il comfort e la qualità costruttiva.

Reduce a sofa to just a few fundamental elements: a frame in tubular steel, a fabric strap and a padded cushion. This is the birth of Simple, a sophisticated family of armchairs, sofas, chairs and tables where the clever fusion of materials and finishes emphasise the simplicity of the forms, the sense of solutions, comfort and build quality.

Reduktion eines Sofas auf wenige Grundelemente: ein Stahlrohrgestell, ein Stoffband und Polsterkissen. So entstand Simple, eine raffinierte Familie von Sesseln, Sofas, Stühlen, Puffs und Couchtischen, bei der die gekonnte Verschmelzung von Materialien und Oberflächen die Einfachheit der Formen, die Rationalität der Lösungen, den Komfort und die Verarbeitungsqualität hervorhebt.

Pure design Marcello Ziliani

C'è molto carattere in Pure, così essenziale, ed elegante, la linea della gamba anteriore che si apre verso l'esterno e si curva all'indietro per salire a creare il sofisticato e confortevole schienale avvolgente. Il legno di Iroko, dai bellissimi riflessi ambrati, è destinato alle versioni outdoor, con seduta in fettuccia di corda nautica, prodotta e intrecciata a mano in Italia, o in batiline effetto tessuto. Declinata nelle versioni poltroncina da tavolo e poltrona lounge (entrambe impilabili) questa collezione è perfetta per una destinazione prettamente contract così come per arredare con raffinatezza ville e giardini privati.

The new product line Pure has an essential and elegant character. The line of the front leg is open to the outside and curved backwards to create the comfortable enveloping backrest. Iroko wood, with its beautiful, amber reflections, is designed for outdoor versions - with a nautical line, made and handcrafted in Italy, or fabric-effect batiline. Transferred to armchairs and lounge chairs (both stackable), this collection is great for stylishly setting up studios, villas, and private gardens.

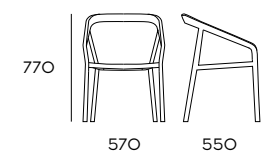

Die neue Produktlinie Pure hat einen essentiellen und eleganten Charakter. Die Linie des Vorderbeins ist nach außen hin geöffnet und nach hinten gekrümmt, um die komfortabel umhüllende Rückenlehne zu schaffen. Iroko-Holz mit seinen schönen, bernsteinfarbenen Reflexen ist für Outdoor-Versionen vorgesehen - mit Sitz in nautischer Schnur, hergestellt und handgefertigt in Italien, oder in Batiline mit Stoffeffekt. Übertragen auf Sessel und Lounge-Sessel (beide stapelbar), eignet sich diese Kollektion hervorragend für das stilvolle Einrichten von Studios, Villen und privaten Gärten.

Briccola

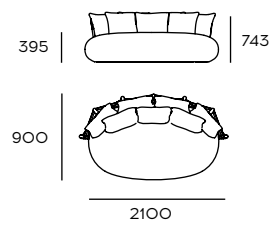

project Marcello Ziliani

Le file irregolari di pali in legno che spuntano dall'acqua di Canal Grande sono l'immagine che ha ispirato questa collezione di imbottiti in cui lo schienale è creato da un ventaglio di "briccole" legate da fasce di tessuto mentre seduta e cuscini hanno le forme lisce e arrotondate dei ciottoli levigati dalle spiagge della laguna.

The irregular line of wooden poles that rise up from the waters of the Grand Canal is the image that inspired this collection of upholstered items where the back is created by a fan of "briccole" bound with strips of fabric whilst the seat and cushions have the smooth and rounded shapes of pebbles polished by the beaches of the lagoon.

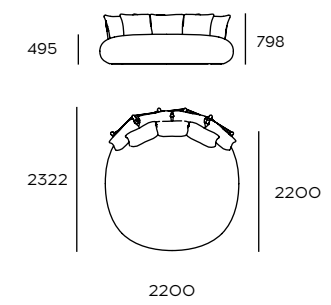

Die unregelmäßigen Reihen von Holzpfählen, die aus dem Wasser des Canal Grande herausragen, sind das Bild, das diese Polstermöbelkollektion inspiriert hat. Die Rückenlehne besteht aus einem Fächer aus "Dalben", der mit Stoffbändern zusammengehalten wird, während die Sitzfläche und die Kissen die glatten, abgerundeten Formen von Kieselsteinen haben, die an den Stränden der Lagune geschliffen wurden.

Fusion

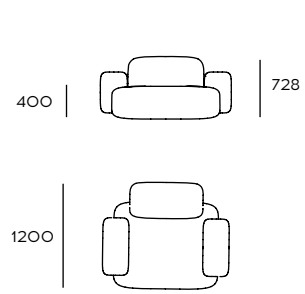

project Marcello Ziliani

Fusion trae spunto dall'immagine di morbidi solidi che si fondono uno nell'altro generando figure plastiche e scultoree. Schienali e braccioli di questa serie di imbottiti sono come incastonati nella base dalla quale emergono a costituire delle sedute iconiche, estremamente confortevoli e funzionali.

Fusion draws inspiration from the image of soft blocks that merge together to form flexible and sculpturistic shapes. The backs and arms of this upholstered range appear as if they are set in a base from which iconic seating emerges, extremely comfortable and functional.

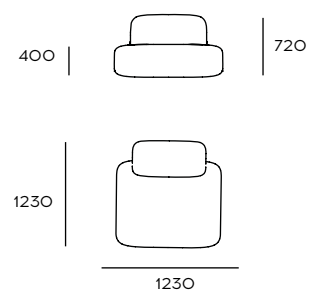

Fusion geht von dem Bild weicher Körper aus, die ineinander übergehen und plastische, skulpturale Figuren bilden. Die Rücken- und Armlehnen dieser Polsterserie sind in den Sockel eingelassen, aus dem sie herausragen und ikonische, äußerst bequeme und funktionelle Sitze bilden.
